February 22, 2024

***FOR IMMEDIATE RELEASE***

FOLLOW-UP STATEMENT ON RECENT EVENT

As Superintendent, I want to address recent event that occurred outside of school hours but has undoubtedly impacted our school community. We understand the concerns and unease these events may have caused among our students, staff, and families.

Please know that Southwick-Tolland-Granville Regional School District is actively engaged in addressing these matters. We believe that open communication and education are paramount in addressing challenges and cultivating a safe and supportive environment for all.

In light of this, we will be organizing a special assembly for students upon their return to school. This assembly will serve as a forum for open dialogue, support, and guidance on navigating challenging situations both inside and outside of school.

Furthermore, we are committed to providing additional resources to educate both our staff and students on relevant topics. We will be enlisting external experts to lead discussions, offer training, and equip our school community with the necessary tools to address similar situations in the future.

Maintaining a safe and inclusive learning environment is of utmost importance. We encourage open communication and collaboration as we work together to address these challenges and fortify our community.

Thank you.

Jennifer Willard
Superintendent of Schools
